THE NORMAN

SIDE LIFTER

The Norman side lifter was engineered and manufactured by Comtruk® to provide a safer way for Reece to deliver heavy products.

Reece received the "2019 WorkSafe Awards Best Solution to a Manual Handling Issue" and the "Best Solution of a WHS Risk (Medium to Large Business)" at the 2019 National Safety Awards of Excellence for their fleet's adoption of the Norman side lifter.

200KG SWL

570MM X 580MM
LOAD AREA

90° PIVOT

68KG
WEIGHT OF THE LIFTER

Rated for a safe working load of 200kgs, the Norman side lifter makes it possible for one person to safely load a hot water heater, oil drum, pool chemicals, or similar items.

The Norman is lightweight, yet strong. It features a large platform with safe, user friendly controls. The system is enclosed within the lift arm. It offers an efficient and effective resource for commercial fleets to increase productivity and safety.

The Norman lifter can be fitted or retro-fitted to most aluminium and steel flatbeds and tray decks.
